

UCC Adult Continuing Education Department

Online Certificate in Autism Studies

The **UCC Online Certificate in Autism Studies (CAUS)** will run between **January and October 2017**.

Fees for this course are €1,500 from 1 Jan 2017. They are payable in two instalments – half on application and the balance half way through the course.

The course is open for applications now via the website at: <http://www.ucc.ie/en/ace-caus/> . Applications will close on Friday 16 December.

Who does this course and what is it like?

In general, many parents of autistic children do the course, as well as teachers, SNAs and others involved in working with autism, and adults who have autism themselves. Lecturers are friendly and helpful and will do all they can to assist students to complete the course successfully. There are also features such as online chatrooms and forums for the students of the course and the friendships and connections made are among the most valuable aspects of taking part in the course.

Further information is available on the UCC website at: <https://www.ucc.ie/en/ace-caus/>

Please contact us at any time in the Adult Continuing Education centre to assist in any way we can.
